

CCLI 2020-2021

Together we make a difference!

The Climate Change Leadership Institute

DIRECT ACTION

We advance climate solutions that strengthen our community:

We continue to provide **weatherization services for low income households.**

Making buildings/homes efficient is a solution to the climate crisis that also helps people in need during these challenging economic times.

We're promoting the **NM Healthy Soil Program**, supporting farmers & ranchers in pursuit of regenerative agriculture, educating consumers and locally working to mend the global food system, which accounts for 30 percent of total greenhouse gas emissions. Get involved in this restorative movement at www.nmhealthysoil.org.

We advocate for **carbon pricing to address pollution from transportation**, the 2nd largest source of statewide emissions. We support a fee at the pump, using the revenue generated for EV expansion, road improvement & tax rebates for working families.

We continue **honoring young people and their empowering solutions to the climate crisis** thru our scholarship endowment & internship programs.

YOUTH 4 NATURE

TEAM BUILDING

CCLI honors leadership & fosters teamwork. Here are the 2020 award winners:

Climate Courage Award - Noam Chomsky & Robert Pollin for [their book on the climate crisis](#) calling for a bold & viable solution with a just transition. A donation has been made to Sunrise Movement in their name.

Justice Award - James & Joyce Skeet with [Covenant Pathways](#) for tribal & wider community leadership advancing regenerative agriculture & food system reform.

Direct Action Award - to Dave DuBois the State Climatologist for raising awareness about climate impacts & the [public health benefits in store if we face the crisis](#).

Innovation Award - Thomas Bowles for building partnerships around New Mexico's [Roadmap for a clean energy future](#).

Conservation Award - Tammy Fiebelkorn with [SWEET](#) for excellence in advancing energy savings in the Southwest.

Education Award - Dara Johnson with [Albuquerque Academy's community service program](#) & environmental club for listening to and engaging students in climate leadership.

Strengthening our community & combatting greenhouse gas emissions at once!
