

December 15, 2021

Mr. Casey Harrell  
90 Athol Ave, 1E  
Oakland, CA 94606

Dear Casey,

In honor of your extraordinary determination and crucial success holding Wall St. and US Corporations accountable for fostering a livable climate, we proudly present you with the 2021 Climate Courage Award. In your name a seed grant will be given to the Windward Fund/Sunrise US for BlackRock's Big Problem (BBP) campaign you co-created.

The Climate Change Leadership Institute (CCLI) is giving out this award to you and while we are just a small community oriented non profit, we honor great displays of leadership in thwarting the climate crisis. We give out 6 awards per year mostly locally to those that make outstanding contributions in key solution areas. The Climate Courage Award typically honors someone nationally who makes a momentous difference in combatting climate change. For this reason it is our most prestigious award and one that you are most deserving of.

You are receiving this award more than anything because of your values, demonstrating integrity by prioritizing the common cause of combatting the climate crisis, because of your team's results, making an indelible impact at the highest levels of our economic power structure, and because of your overarching love, committing yourself to the well being of your family, to present and future generations and to our collective home. All together you have been momentous in the movement to solve the climate crisis as well as in your personal health struggle with ALS.

We wish you well, we commend you and we thank you dearly for all you have done and do for the health of humankind and the Earth we inhabit.

With much appreciation,

Robb Hirsch  
Founder and Executive Director  
Climate Change Leadership Institute
