

The Climate Change Leadership Institute

2016 NEWS-TRIBUTES Thanks to the Teamwork of CCLI, our Sponsors & You!

DIRECT ACTIONS:

To demonstrate *our priority to reduce emissions & help those in need*, we provide **weatherization & energy efficiency upgrades at low income households** thanks to our partnership with the MFA (shown right) & the Frost Foundation.

CCLI is creating a scholarship endowment in collaboration with LANL & the LANL Foundation **helping NM students pursue environmental science degrees.**

Teaming up with Grow Y'Own (featured left), we're **planting vegetable gardens @ pre-schools, pueblos & homeless shelters** to support our community's health & food security.

We're generating a **grassroots movement in support of a local carbon fee & dividend.** Join the 2500 residents & 100 local businesses calling on Santa Fe to enact an *Environmental Impact Fee & Community Empowerment Initiative.*

We offer **paid student internships** & recently hired a bright student from the Santa Fe College of Art & Design named Charlie Stevenson (shown left climbing). His outdoor experience at NOLS made him appreciate how much

the mtns & nature have given him & he now feels it's time to give back.

SEED GRANTS:

CCLI gives out annual community seed grant awards to encourage leadership, build alliances & generate climate stewardship. 2016 categories/recipients are:

Conservation - Mitch Varela (featured right) honored for his longstanding commitment to walking, a great way to cut back on fossil fuels while improving the health & vibrancy of our community. Mr. Varela will share the seed grant to encourage walkability in our City Different.

Direct Action - Citizens Climate Lobby/CCL for raising our community's awareness of the importance of enacting a nationwide revenue neutral carbon fee & dividend. The grant will support the rise of a CCL Student Leadership Corps at local high schools & colleges.

Justice - Social Equity Working Group CCLI has teamed up with this sub cmte of the Sustainable Santa Fe Commission to reach out to underrepresented residents of our City and develop just ways for Santa Fe to achieve carbon neutrality by 2040.

Innovation/Education - Andrea Polli, a UNM professor & pioneer at the crossroads of env science, art & technology. Andrea raises student & civil society awareness about the climate challenge & encourages us to deploy our capabilities & artistry to solve it.

LED ART by Andrea Polli at the Balloon Museum in ABQ

Climate Courage Award - Bernie Sanders for his unwavering commitment to tackling climate change & fossil fuel pollution as well as making a carbon tax a platform priority. In the Senator's name the grant will be given to his local Energy & Climate Action Network.

Working together to phase out greenhouse gas emissions & uplift the community at once!
