

November 5, 2013

Eric M. Xubi Wilson
Renewable Energy Programs Coordinator
School of Trades and Technology / Santa Fe Community College
6401 Richards Ave
Santa Fe, NM 87508

Dear Xubi:

The Climate Change Leadership Institute (CCLI) is a New Mexico based non profit organization dedicated to local climate leadership, conservation and clean energy. We organize annual direct action projects and give out annual seed grant awards to leaders in the community that advance sustainable development and climate stewardship. Among a number of leadership seed grant categories, we give out the annual education leadership award to advance local learning and leadership in the field of sustainability.

CCLI is proud to present the 2013 Education Leadership Award & Seed Grant to you Xubi Wilson. You have been a longstanding proponent for sustainability. Your teaching at the Santa Fe Community College is engaging young people in the vital field of renewable energy development. Your educational principles - including the understanding that students learn best in collaboration with hands on community based applications - help achieve the twin goals of educational development and environmental stewardship. For these reasons and more, you have been selected as this year's recipient of CCLI's Education Award.

The seed grant portion of this award will go to you and towards the advancement of renewable energy and environmental education at SFCC. CCLI is happy to assist in any such relevant student workshops and projects that grow out of this award. If you could please write us a response letter reflecting on what it means to you to win this award and how you plan to use the seed grant portion of the award so we may post the letter on our website www.takeresponsibility.us.

Our congratulations to you on winning CCLI's 2013 Education Leadership Award.

Sincerely,

Robb Hirsch
Executive Director & Founder
