

RACE for the Climate

Create your very own adventure magnifying the urgent need for climate action. Join the **RACE: Responding Ardently/Adventurously to the Climate Emergency**. It's a race against time, a race of our lifetimes for the integrity of the human race and the preservation of life & justice on earth. The Climate Change Leadership Institute (CCLI) will help fund & back you on your vital journey.

Do Something Extraordinary to Propel US Climate Leadership

The top climate action adventure ideas with thoughtfulness, commitment, impact-fulness & viability behind them are eligible for sponsorship by CCLI. Sponsorship includes funding and planning support, promotion and collaboration. All submitted ideas will receive some form of consultation & feedback if needed. Proposals will be considered year round.

How to Apply

Email us your proposal at ccli@takeresponsibility.us and include the following:

- 1) What is your climate action adventure idea & what will you do to maximize your impact;
- 2) How will you implement the idea successfully; how much money do you need to make it happen; how will you spend it; how will you work with others to make a difference;
- 3) Why are you the right person to lead such an endeavor & why now;
- 4) When will you achieve key milestones (achieving milestones enables optimal outcomes);
- 5) Who can vouch for you that you will responsibly, w/ integrity & care, bring your idea to life.

Learn from Homegrown Journeys that Raised Awareness & Encouraged the US to Lead
CCLI's Founder Robb Hirsch has led a few intrepid endeavors of his own including the [Climate Ride and Walking Four Directions](#). We hope these experiences spur you on to come up with impactful, life changing endeavors of your own.

Get Further Inspired by International Stars of Climate Action & Soul Force

like [Elizabeth Wathuti & Mohandas Gandhi](#) who turned around the counter equations of their time and led transformative, earth changing movements of their own.

You Can Do It

Don't shy away from doing something earth changing. Even if you feel inadequate or think your actions would be smaller than what is needed; think again. You can put yourself out there, use your imagination, deploy your talents and most importantly you can work together with others and lead by example. When we take a brave stand and give our all to the climate cause, we contribute to a [ripple of hope](#) (RFK's poignant message to young people) that reverberates, gains traction & builds momentum (like a snow ball growing bigger with each revolution as it races down the mountain) to the point where we actually do change the world!
